signed by the Clerk of the Authority and deposited for inspection at the offices of the Warmley Rural District Council, Warmley House, Warmley,

and a certified copy of which has been similarly deposited at The Area Planning Office,

Shields House, Filton, Bristol, ^{1,} which map shall, for the purpose of such definition as aforesaid, prevail where any ambiguity arises between it and the specification in the said First Schedule.

3. An application for consent made to the authority under Article 2 of this Order shall be in writing stating the reasons for making the application, and shall by reference if necessary to a plan specify the trees to which the application relates, and the operations for the carrying out of which consent is required.

4.—(1) Where an application for consent is made to the authority under this Order, the authority may grant such consent either unconditionally, or subject to such conditions (including conditions requiring the replacement of any tree by one or more trees on the site or in the immediate vicinity thereof), as the authority may think fit, or may refuse consent.

Provided that where the application relates to any woodland specified in the First Schedule to this Order the authority shall grant consent so far as accords with the principles of good forestry, except where, in the opinion of the authority, it is necessary in the interests of amenity to maintain the special character of the woodland or the woodland character of the area, and shall not impose conditions on such consent requiring replacement or replanting.

(2) The authority shall keep a register of all applications for consent under this Order containing information as to the nature of the application, the decision of the authority thereon, any compensation awarded in consequence of such decision and any directions as to replanting of woodlands; and every such register shall be available for inspection by the public at all reasonable hours.

5. Where the authority refuse consent under this Order or grant such consent subject to conditions they may when refusing or granting consent certify in respect of any trees for which they are so refusing or granting consent that they are satisfied—

(a) that the refusal or condition is in the interests of good forestry; or

(b) in the case of trees other than trees comprised in woodlands, that the trees have an outstanding or special amenity value.

6.—(1) Where consent is granted under this Order to fell any part of a woodland other than consent for silvicultural thinning then unless—

(a) such consent is granted for the purpose of enabling development to be carried out in accordance with a permission to develop land under Part III of the Act, or

(b) the authority with the approval of the Minister dispense with replanting,

the authority shall give to the owner of the land on which that part of the woodland is situated a direction in writing specifying the manner in which and the time within which he shall replant such land and where such a direction is given and the part is felled the owner shall, subject to the provisions of this Order replant the said land in accordance with the direction.

* For wording of preamble refer to Appendix B of the Memorandum on the Preservation of Trees and Woodlands (Second Edition 1966).

NOTE:—If it is desired to fell any of the trees included in this Order whether included as trees, groups of trees or woodlands and the trees are trees for the felling of which a licence is required under the Forestry Act, 1951, application must be made *not* to the authority for consent under this Order but to the Forestry Commissioners for a licence under that Act. (See Forestry Act, 1951, Section 13(4)).

(2) Any direction given under paragraph (1) of this Article may include requirements as to—

- (a) species;
- (b) number of trees per acre;
- (c) the erection and maintenance of fencing necessary for protection of the replanting;
- (d) the preparation of ground, draining, removal of brushwood, lop and top; and
- (e) protective measures against fire.

7. On imposing any condition requiring the replacement of any tree under Article 4 of the Order, or on giving a direction under Article 6 of this Order with respect to the replanting of woodlands, the authority shall if such condition or direction relates to land in respect of which byelaws made by a river authority or a drainage board restrict or regulate the planting of trees, notify the applicant or the owner of the land, as the case may be, of the existence of such byelaws and that any such condition or direction has effect subject to the requirements of the river authority or drainage board under those byelaws and the condition or direction shall have effect accordingly.

8. The provisions set out in the Third Schedule to this Order, being provisions of Part III of the Act adapted and modified for the purposes of this Order, shall apply in relation thereto.

9. Subject to the provisions of this Order, any person who has suffered damage or has incurred expenditure in consequence of any refusal of consent under this Order or of any grant of any such consent subject to conditions, shall, if he makes a claim on the authority within the time and in the manner prescribed by this Order, be entitled to recover from the authority compensation in respect of such damage or expenditure.

Provided that no compensation shall be payable in respect of damage suffered or expenditure incurred by reason of such refusal or grant of consent in the case of any trees the subject of a certificate in accordance with Article 5 of this Order.

10. In assessing compensation payable under the last preceding Article account shall be taken of:

- (a) any compensation or contribution which has been paid whether to the claimant or any other person, in respect of the same trees under the terms of this or any other Tree Preservation Order under Section 29 of the Act or under the terms of any Interim Preservation Order made under Section 8 of the Town and Country Planning (Interim Development) Act, 1943, or any compensation which has been paid or which could have been claimed under any provision relating to the preservation of trees or protection of woodlands contained in an operative scheme under the Town and Country Planning Act, 1932, and

- (b) any injurious affection to any land of the owner which would result from the felling of the trees the subject of the claim.

11.—(1) A claim for compensation under this Order shall be in writing and shall be made by serving it on the authority, such service to be effected by delivering the claim at the offices of the authority addressed to the Clerk thereof or by sending it by prepaid post so addressed.

(2) The time within which any such claim shall be made as aforesaid shall be a period of twelve months from the date of the decision of the authority, or of the Minister, as the case may be, or where an appeal has been made to the Minister against the decision of the authority, from the date of the decision of the Minister on the appeal.

12. Any question of disputed compensation shall be determined in accordance with the provisions of Section 128 of the Act.

13. Any person contravening the provisions of this Order is guilty of an offence under subsection (1) of Section 62 of the Act and liable on summary conviction to a fine not exceeding fifty pounds; and if in the case of a continuing offence the contravention is continued after conviction he is guilty of a further offence thereunder and liable on summary conviction to an additional fine not exceeding forty shillings for every day on which the contravention is so continued.

The following provisions of Part II of the Civic Amenities Act 1967 came into force on 27th August, 1967 and have effect in relation to tree preservation orders:-

Replacement of trees.

Section 13.-(1) If any tree in respect of which a tree preservation order is for the time being in force, other than a tree to which the order applies as part of a woodland, is removed or destroyed in contravention of the order or is removed or destroyed or dies at a time when its cutting down is authorised only by the provisions of section 29(7) of the Planning Act relating to trees which are dying or dead or have become dangerous, it shall be the duty of the owner of the land, unless on his application the local planning authority dispense with this requirement, to plant another tree of an appropriate size and species at the same place as soon as he reasonably can.

*(2) In relation to any tree planted pursuant to this section, the relevant tree preservation order shall apply as it applied to the original tree.

(3) The duty imposed by subsection (1) of this section on the owner of any land shall attach to the person who is from time to time the owner of the land and may be enforced as provided by section 14 of this Act and not otherwise.

Default powers and appeals.

Section 14.-(1) If it appears to the local planning authority that the provisions of section 13 of this Act, or any conditions of a consent given under a tree preservation order which require the replacement of trees, are not complied with in the case of any tree or trees, that authority may, at any time within four years from the date of the alleged failure to comply with the said provisions or conditions, serve on the owner of the land a notice requiring him, within such period as may be specified in the notice, to plant a tree or trees of such size and species as may be so specified.

(2) Subject to the following provisions of this section, a notice under this section shall take effect at the end of such period (not being less than twenty-eight days after the service thereof) as may be specified in the notice.

(3) A person on whom a notice under this section is served may, at any time within the period specified in the notice as the period at the end of which it is to take effect, appeal to the Minister against the notice on the ground-

- (a) that the provisions of the said section 13 or the conditions aforesaid are not applicable or have been complied with;
- (b) that the requirements of the notice are unreasonable in respect of the period or the size or species of trees specified therein;
- (c) that the planting of a tree or trees in accordance with the notice is not required in the interests of amenity or would be contrary to the practice of good forestry;
- (d) that the place on which the tree is or trees are required to be planted is unsuitable for that purpose;

and subsections (2) to (5) of section 46 and section 180 of the Planning Act (procedure and powers of Minister on appeal, and appeals

to the High Court from decision of Minister) shall apply in relation to any such appeal as they apply in relation to an appeal against an enforcement notice.

(4) In section 48 of the Planning Act (execution by local planning authority of works required by an enforcement notice) and in section 49 of that Act (supplementary provisions as to enforcement notices) and any regulations in force under that section, references to an enforcement notice and an enforcement notice served in respect of development shall include references to a notice under this section; and in relation to such a notice the reference in subsection (1) of the said section 49 to the person by whom the development was carried out shall be construed as a reference to any person, other than the owner, responsible for the cutting down, destruction or removal of the original tree or trees.

Penalties

Section 15.- (1) In relation to an offence of cutting down or wilfully destroying a tree, or of topping or lopping a tree in such a manner as to be likely to destroy it, being an offence committed after the commencement of this Act, section 62(1) of the Planning Act shall have effect as if for the words "fifty pounds" there were substituted the words "two hundred and fifty pounds or twice the sum which appears to the court to be the value of the tree, whichever is the greater".
